

HAMPDEN TOWN COUNCIL  
HAMPDEN MUNICIPAL BUILDING  
AGENDA

WEDNESDAY

SEPTEMBER 23, 2009

7:00 P.M.

• **5:45 pm – FINANCE COMMITTEE MEETING**

A. CONSENT AGENDA

1. SIGNATURES

a. Treasurer's Warrants

2. SECRETARY'S REPORTS

3. COMMUNICATIONS

- a. Gregory Hawkins – Lura Hoit Pool Board of Trustees – New Application
- b. Penobscot River Tolling & Standstill Agreement
- c. Wendy Flannery – Recreation Committee – New Application
- d. Time Warner – 9/1/09

4. REPORTS

- a. Pool Board Minutes – 7/14/09
- b. Economic Development Team Report
- c. Library Trustee Minutes – 6/13/09
- d. Landfill Complaints – August 2009
- e. Landfill Special Waste Report – August 2009
- f. General Assistance Audit – 9/1/09

B. PUBLIC COMMENTS

C. POLICY AGENDA

1. PUBLIC HEARINGS

- a. Application for Victualer's License received from Blue Sky Enterprises, d/b/a Hampden Natural Foods at 281 Western Avenue

2. NOMINATIONS – APPOINTMENTS – ELECTIONS

**NOTE: The Council will take a 5-minute recess at 8:00 pm.**

3. UNFINISHED BUSINESS

a.

4. NEW BUSINESS

- a. Application for Renewal of an Outdoor Wood-burning Furnace License received from Doug and April Stanhope, 560 Western Avenue
- b. Excise Tax Referendum Question – Finance Committee Recommendation
- c. MMA Voting Delegate
- d. PENQUIS – Robert Porter, Mayo Road - Repairs

D. COMMITTEE REPORTS

E. MANAGER'S REPORT

F. COUNCILORS' COMMENTS

G. ADJOURNMENT

## FINANCE COMMITTEE

### A G E N D A

Monday, September 23, 2009

5:45 p.m.

Hampden Town Office

1. Minutes of August 17, 2009 Meeting
2. Review and signature of Warrants
3. Review of Financial Statements
4. Old Business
5. New Business
  - a. Excise Tax Referendum
  - b. Tabor II Referendum
  - c. 10 Mayo Road
6. Public Comments
7. Committee Member Comments

FINANCE COMMITTEE MEETING  
MINUTES  
Monday, August 17, 2009

Attending:

Mayor Matthew Arnett  
Councilor William Shakespeare  
Councilor Thomas Brann  
Councilor Janet Hughes  
Councilor Andre Cushing  
Sue Lessard, Town Manager

The meeting was opened at 5:45 by Mayor Arnett

1. The minutes of the August 3, 2009 Finance Committee meeting were reviewed. No changes or corrections were made and the Mayor declared them accepted.
2. The warrants were reviewed and signed by Mayor Arnett and Councilor Shakespeare.
3. Old Business
  - a. The Committee discussed the long-term resident tax rebate proposal that had been tabled pending information related to the tax commitment for 2010. The Town Manager provided information that showed that the overlay for the 2010 commitment would be just over \$46,000, which is less than 1% of the total commitment. The cost of a \$10,000 valuation credit on the 300 over-65 eligible residents would total \$47,700.

Committee members discussed their concerns over the implementation of such a program at this time. Mayor Arnett cited the issue of competing needs for funding, Councilor Shakespeare cited concerns over the timing of it since the employees had given up cost of living increases in this year, Councilor Cushing was concerned over the potential to divide the community by creating 'classes' of eligibility, Councilor Hughes had reservations about singling out one group over another since the economy is putting stress on everyone. Despite these reservations, however, there was consensus that this idea should remain active for future consideration. Councilor Brann – who originated the idea for the proposal – was concerned about postponing it another year but agreed that in this environment, we need to make sure that if we do start it at some point, it can remain active

/

and ongoing. Motion by William Shakespeare, seconded by Andre Cushing to postpone further discussion on this issue until budget preparation for the 2010-2011 budget. Vote 5 – 0.

4. New Business

- a. Councilor Cushing suggested that the Council hold a strategic planning session prior to the next budget. After the seating of Councilors in January of 2010 was identified as an appropriate time frame.
- b. The Town Manager announced that the Assessor would be retiring at the end of December of 2009 and that advertisements would be placed soon.

The meeting was adjourned at 6:25 p.m.

Respectfully submitted,

Susan Lessard  
Town Manager

### **Talking Points in Opposition to the Excise Tax Initiative**

- Municipal officials are strongly opposed to the excise tax initiative
- Motor vehicle excise taxes are collected by Maine's towns and cities and retained at the local level to be used for local purposes. The initiative drastically reduces this source of revenue by 40%. (Total excise taxes collected in 2008 = \$205 million. The initiative would reduce that revenue by \$82 million)
- Statewide, municipalities spend \$235 million per year maintaining over 13,000 miles of local roads and over 800 local bridges. This includes plowing snow and sanding streets in the winter as well as road reconstruction and bridge repair in the summer. This work is crucial to our economy and our safety.
- The money used for this road work comes primarily from two sources, 90% from the motor vehicle excise tax and 10% from state aid. There is no requirement that excise taxes to be used for road repair and maintenance, but the facts clearly show that they are. The amount all our towns and cities spend on roads and bridges put together is equal to all motor vehicle excise taxes plus all state aid. This is no coincidence.
- The cut to the motor vehicle excise tax caused by the initiative would reduce the quality of our roads and local bridges.
- Also, the initiative will only benefit people who own newer cars, hybrid-type cars and motorcycles. According to the Bureau of Motor Vehicles, nearly 70% of registered cars in Maine don't qualify for any benefit under this proposal. The only ones to get a break are those who can afford a new car, but new cars and hybrids do just as much damage to roads as other cars.
- This proposal only benefits a few. Most of us will see poorer roads or increased property taxes to make up for the lost revenue, or some combination of both.

## Excise Tax Initiative Impact (2008)

<sup>1</sup> Assumes excise tax revenues will be reduced by 40%.

SA

**RESOLUTION**  
**IN OPPOSITION TO THE INITIATED BILL LD 974**  
**"An Act to Decrease the Automobile Excise Tax and Promote Energy Efficiency"**

**WHEREAS**, the initiated bill LD 974, *An Act to Decrease the Automobile Excise Tax and Promote Energy Efficiency*, would cut over \$80 million of revenue each year to Maine's towns and cities that is used to plow, treat, construct, repair and maintain over 13,000 miles of local roads and over 800 local bridges; and

**Whereas**, LD 974 would cut approximately \$366,177 in revenue this community uses every year to repair and maintain approximately sixty-five miles of local roads; and

**Whereas**, the motor vehicle excise tax revenue is vitally necessary to adequately maintain this infrastructure for reasons of public safety and welfare and economic development; and

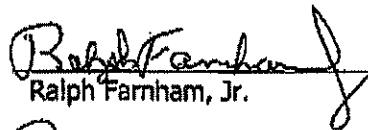

**Whereas**, the adoption of the excise tax initiative would likely lead to a significantly deteriorated transportation system in this community or, in the alternative, increases to the municipality's property tax rate; and

**Whereas**, the excise tax initiative inappropriately increases the regressivity of the motor vehicle excise tax by providing substantial benefits to the owners of newer and specialized motor vehicles while providing no tax benefits to the owners of motor vehicles that are older than five years of age, which represent the majority of registered motor vehicles; and

**Whereas**, the excise tax initiative is falsely presented as a "green" initiative while at the same time seriously impairing the capacity of the towns and cities in Maine to construct and maintain road systems that appropriately protect Maine's water quality;

**NOW, THEREFORE, BE IT RESOLVED** that the Oakland Town Council hereby expresses its grave concern about the initiated bill LD 974, *An Act to Decrease the Automobile Excise Tax and Promote Energy Efficiency*, and further agrees to provide information to the voters of Oakland regarding the potential negative impacts of this initiated legislation.

## CITY OF BANGOR

---

**(TITLE.)** Resolve, Indicating the Opposition of the City of Bangor to the November Ballot Question Seeking to Decrease the Automobile Excise Tax.

WHEREAS, a question will appear on the November election ballot that, if approved, would result in a dramatic reduction in the automobile excise tax; and

WHEREAS, vehicles less than six years old would see a reduction in the excise tax ranging between forty and seventy percent, while vehicles six years old and older would see no change; and

WHEREAS, 67% of the vehicles in Bangor and 68% of vehicles statewide are six years old and older and would see no change in their excise tax; and

WHEREAS, corporate and business fleets, which are the source of approximately one-third of the City's excise tax receipts, would be a major beneficiary of this change; and

WHEREAS, this will result in an approximate 40% reduction in auto excise tax revenues received by the City of Bangor; and

WHEREAS, the auto excise tax is the third largest revenue source supporting City General Fund operations, providing the City with approximately \$4.6 million dollars annually, an amount which would be reduced by \$1.8 million under this proposal; and

WHEREAS, auto excise receipts, when coupled with road assistance funding received from the State of Maine, closely approximate the amount spent annually by the City for summer and winter road maintenance; and

WHEREAS, to replace this lost revenue through property taxation would require the City to increase its property tax rate by 75 cents per thousand of assessed value; and

WHEREAS, if approved, this reduction could go into effect as early as January 2010, six months into the City's fiscal year and at a point where the primary option available to the City to adjust to this loss would be to reduce the approved General Fund expenditure budget; and

WHEREAS, given the \$1.3 million that was cut from the originally proposed Fiscal Year 2010 budget in order to maintain a stable tax rate for that year, a mid-year expenditure reduction of this magnitude would require the elimination of city services and staff, including positions in such core services as Police, Fire, and Public Works;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF BANGOR THAT

The City Council opposes the November ballot question that would significantly decrease the automobile excise tax for the following reasons:

- Reducing the excise tax will increase the City's reliance on the property tax and likely require property tax increases to maintain essential services otherwise funded through excise taxes;
- The excise tax is often more closely related to ability to pay than the property tax in that it reflects the value of the vehicle purchased and drops over time as vehicles age;
- The excise tax, in conjunction with State provided local road assistance, closely approximates the amount the City spends annually on summer and winter road maintenance, in effect functioning as a form of user fee for street maintenance;
- 67% of the vehicles currently registered in Bangor would see no change in their excise tax since they are six years old or older;
- If approved, these reductions would go into effect in the middle of the City's budget year, requiring significant expenditure reductions, much of which could only be accomplished through eliminating services and positions, including positions in such core municipal services and Police, Fire, and Public Works.

## MMA Talking Points - TABOR II

1. TABOR II is little more than a warmed-up version of the flawed TABOR I proposal rejected by Mainers in 2006
2. Since TABOR I was rejected by the voters in 2006, both the State's General Fund Budget and the Highway Fund Budget have been cut in real dollars.
3. For four years Maine law has had formula-based spending limits on both state and local government; the undisputed evidence is that the State and local governments (in the aggregate) have stayed within those spending limits.
4. The TABOR II spending limit for the state is less stable, and oftentimes more generous, than the spending limit currently in law.
5. TABOR II limits hundreds of special purpose, broadly supported special revenue accounts as diverse as the "Maine Black Bear Scholarship Fund", the "Maine Dairy Farm Stabilization Fund", the "Snowmobile Trail and Trail Grooming Equipment Fund", the "Maine Outdoor Heritage Fund", the "Eel and Elver Management Fund", and the "Saco River Corridor Commission".
6. TABOR II requires a statewide referendum on state-level tax decisions which cause a net increase of 1/100 of 1% (.0001) – as little as \$300,000.
7. The cost of a statewide referendum is approximately \$1 million.
8. In addition to a statewide referendum, TABOR II requires an election packet be mailed to each of Maine's 1 million registered voters. The packet (which itself will cost approximately \$800,000 to print and mail) must include:
  - The election date, hours, local election office address and telephone number;
  - The ballot title and text
  - Total state spending for the current fiscal year and past 4 years (including dollar and % changes)
  - The maximum dollar amount of the spending or tax increase
  - What the budget would look like without the spending or tax increase.
9. TABOR II includes the "ratchet effect" such that future spending is limited to current year spending plus an adjustment factor. So in years of extraordinary circumstances where "current year spending" is cut – years such as FY 2010 and FY 2011 – those years become the base for future spending. In this way TABOR II "ratchets down" budgets. It is for this reason that Colorado, the only state to have adopted TABOR, suspended a central feature of TABOR in 2005.

10. For FY 2011, state resources are projected to provide only 45% of the cost of public, K-12 education, despite the voter-approved initiative to provide 55% of the cost of education. TABOR II will effectively prohibit the state from ever meeting its promise and complying with the law.
11. TABOR II, like TABOR I, strips local citizens of their power to decide how local decisions should be made. It compels all municipalities to submit certain budget and tax decisions to referendum. Referendum voting is a perfectly valid governance tool. It is an option available to all municipalities today and some have locally chosen to utilize this toll. TABOR II takes away local control over this issue, compels all municipalities and counties to use the tool and then gives the state legislature control over the future of this mandatory referendums law.

**VOTE NO ON TABOR – AGAIN.**

5b

**RESOLUTION**  
**IN OPPOSITION TO THE INITIATED BILL LD 976**  
**"An Act to Provide Tax Relief" aka**  
**TAXPAYERS BILL OF RIGHTS (TABORII)**

**WHEREAS**, since 2005, local governments in Maine have operated under a state law that limits the extent to which the property tax may increase in any given year and that requires the local governing body to vote on a separate article to exceed that limit; and

**WHEREAS**, this law also imposes expenditure limitations on State Government; and

**WHEREAS**, the purpose of this legislation was to limit state spending and the municipal property tax levy in an effort to reduce the tax burden on our citizens and reduce Maine's national ranking on tax burden; and

**WHEREAS**, since it was adopted, it has achieved its stated purpose, with current State spending and overall municipal property taxes both below targeted levels; and

**WHEREAS**, this citizen initiative, also known as TABOR II, will make changes to the current spending and property taxation limits that apply to all levels of government in Maine; and

**WHEREAS**, it will impose growth limits on all state spending, including the State's Highway Fund, where the current law places limits only on the State's General Fund; and

**WHEREAS**, TABOR II will establish Fiscal Year 2010 as the baseline year for all future growth in State spending, a year where both the State General Fund and Highway Fund will experience significant revenue declines; thus, this proposal will lock in State spending at current depressed levels reflecting the impact of the current recession on State revenues; and

**WHEREAS**, current State spending limits are calculated on a cumulative basis allowing that if the amount spent is below the spending limit for the current fiscal year, that limit will be carried forward to next fiscal year thus allowing some flexibility in State spending and providing an incentive to spend below statutory levels; TABOR II will base the following year's spending level on that of the current year, thus creating a "use it or lose it incentive;" and

**WHEREAS**, TABOR II will require statewide voter approval for virtually all tax increases and expenditure increases above the growth limit, a requirement that entails significant additional state and local election expenditures and additional costs associated with its requirement that certain notices and financial information be mailed to every registered voter in the State at an estimated cost of \$800,000 for each mandated referendum; and

5B

**WHEREAS**, at the municipal and county level, TABOR II also mandates referendum voting to approve any budget that exceeds the municipal or county property tax limit; and

**WHEREAS**, it also requires municipalities and counties to adopt a uniform budget format as developed by the State Planning Office; and

**WHEREAS**, both of these requirements will add costs that must be borne by local government and its citizens; and

**WHEREAS**, TABOR II, if approved, will dramatically move state and local government in Maine in the direction of budgeting by referendum, the results of which have become apparent in those States where this has already happened; and

**WHEREAS**, it will limit the flexibility of both the State and its local governments to react to changing conditions, community needs, and economic conditions and undermine the authority of elected officials to make budgetary and service decisions based on information and a depth of analysis unlikely to be undertaken by the average voter; and

**NOW, THEREFORE, BE IT RESOLVED BY THE TOWN COUNCIL OF OAKLAND THAT**

For the following reasons, the Council opposes the so-called TABOR II question that will appear on the November ballot and which would significantly modify current limits on State spending and on the municipal property tax levy:

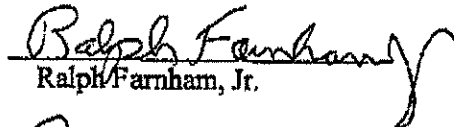

- The spending and levy limits established in current state law have been achieving their stated goal of reducing the tax burden on Maine citizens;
- The requirement that state spending above the spending limit and most tax increases be subject to approval at a statewide referendum will increase both state and local expenses and move toward a system of budgeting by referendum which, as shown by experience elsewhere, is an ineffective way to make budgetary and service level decisions;
- By establishing the current year as the basis from which future state spending increases are to be calculated, state spending, particularly for the highway fund, will be starting from a depressed level reflecting the impact of the current recession;
- Tax policy, budgets, and service levels are best decided through the core processes of representative government where the people elect individuals and charge them with the responsibility of making decisions based on data, analysis, debate, and public opinion while balancing the need for services and expenditures that address the common good with the ability of citizens to pay for such services.

5B

**BE IT FURTHER RESOLVED THAT**

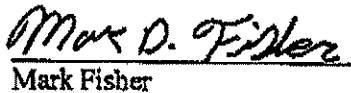

We urge all citizens to become fully informed on this proposal prior to the November election by becoming familiar with the language of the proposal and reviewing materials provided by those supporting and opposing this measure.

Oakland Town Council

Dated: September 9, 2009

TO: Hampden Town Council  
FROM: Sue Lessard, Town Manager  
DATE: September 17, 2009  
RE: 10 Mayo Road

As you are aware, my office spent a good deal of time in July in assisting a property owner with a Penquis CAP application for home repair for a badly leaking roof. At the present time, the property is in a tax acquired status, although the owner has been making monthly payments faithfully for many, many years. The Penquis application ended up being for a program with a 3-5 year waiting list, which is of no use in this instance. The agency was not informative, helpful, or forthright about the program it advertised or considerate in the treatment of our resident. The Chair of the Board of Penquis, Bill Collins, has assured me that the Board is investigating what occurred. There is no chance of funding for our resident – but I am in hopes that as a result of our intervention - no one else gets the kind of cavalier treatment that his case did.

The property owner is in the process of trying to obtain financing that will allow him to pay off all outstanding property taxes and pay for the cost of the shingling that is necessary. I am requesting permission from the Council to use a portion of the funds earmarked for the Penquis donation this year in order to cover the cost of the shingling. In the event that the owner is able to secure financing, he will reimburse the town from that financing. As previously mentioned, the property is in tax acquired status and it is in the best interest of the Town for it to remain in a state of good repair. The cost of shingling the roof is estimated at \$2,500-\$3,000. It is important that it get completed ASAP to avoid further damage to the home.

Re: Status Update – Penobscot River Tolling and Standstill Agreement

Dear Susan Lessard,

We are writing on behalf of Mallinckrodt LLC (“Mallinckrodt”) to provide you with an update concerning the ongoing efforts to evaluate and respond to mercury contamination in the lower Penobscot River and Estuary (the “Penobscot Sites”). Town of Hampden and Mallinckrodt entered into a Tolling and Standstill Agreement with an effective date of July 1, 2008, which is still in effect. The purpose of this letter is to keep you apprised of recent events in the independent scientific study of mercury in the Penobscot Sites that the United States District Court for the District of Maine ordered Mallinckrodt to fund (the “Court-Ordered Study”). See *Maine People's Alliance v. HoltraChem Manf. Co.*, 211 F. Supp. 2d 237, 251 (D. Me. 2002). We anticipate providing periodic updates, such as this, during the Court-Ordered Study.

As noted in our original July 2008 letter to you, since the summer of 2005, Mallinckrodt has been providing funds for the Court-Ordered Study. While the study as a whole continues, Phase I of the Court-Ordered Study has been completed. Phase I focused on determining mercury levels at the Penobscot Sites, in water samples, sediment samples, and biological samples. The report on Phase I (which can be found on PACER) concluded that mercury concentrations are at levels that could pose a risk to the environment and wildlife. Phase II of the Court-Ordered Study is underway (the plan for Phase II can also be found on PACER), and is aimed at determining the process and rate by which mercury levels at the Penobscot Sites will decrease naturally over time, and also whether a more active cleanup strategy is feasible and/or desirable.

As of the date of this letter, Mallinckrodt has been ordered to pay more than \$9.5 million towards the Court-Ordered Study, and will likely be ordered to provide additional funds before the study is finished. There is no set date by which the Court-Ordered Study must be completed, but the most recent schedule estimates that it will continue through at least 2011. At some point after that, a final report and recommendation will be provided to the United States District Court for the District of Maine for approval.

If you have any questions, please contact Maggie Sobota at (312) 853-7857.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Andrew Schlickman", with a long horizontal flourish extending to the right.

J. Andrew Schlickman

BOARD OR COMMITTEE PREFERENCE:  
FIRST CHOICE: Recreation Committee  
SECOND CHOICE (OPTIONAL): \_\_\_\_\_

How would your experience, education and/or occupation be a benefit to this board or committee? My professional education is in the field of child development.

I have varied experiences with children - including the three children I have with my husband Brad. We have lived in Hampden since 1996 and have actively participated in many recreational programs. During that time

Are there any issues you feel this board or committee should address, or should continue to address? Hampden as a community is growing and its programming needs to grow as well. The committee should work to ensure that adult, youth & family recreational needs are met through varied programs, development of natural recreational spaces, and a long term goal of developing a recreational center to reduce dependence upon the use of school based facilities.

September 1, 2009

Dear Sir or Madam,

Time Warner Cable is writing to let you know about a new interactive technology we are implementing within the local franchising area known as Switched Digital Video ("SDV"). SDV is a particularly exciting bandwidth-management breakthrough that makes it possible for us to offer many additional services, including new HD channels and HD versions of popular existing channels, to our customers. SDV allows us to provide these additional services, while at the same time continuing to offer existing services, because channels delivered using SDV are transmitted over the cable system only on an as-needed basis. As a result, SDV uses system capacity more efficiently than the traditional, always-on method. In order to launch all the new services our customers want, we must also deliver some existing channels using SDV to make additional bandwidth available.

The deployment of SDV, by itself, will not have any effect on the services that we offer. In fact, SDV will have no impact whatsoever on the vast majority of our customers. However, SDV will affect the ability of one-way CableCARD-equipped retail devices (also known as Unidirectional Digital Cable Products or "UDCPs") to access certain channels absent additional equipment. For that reason, we are notifying both customers who own UDCPs and the relevant local franchising authorities ("LFAs") of this upcoming change.

Starting on September 30, Time Warner Cable will begin providing a number of our existing, lesser-viewed channels via SDV. The list is attached.

The current generation of CableCARD-compatible devices sold at retail is only capable of accessing our one-way services. Such devices were not designed to be compatible with SDV, which is a two-way service. As a result, once the channels listed above are delivered using SDV technology, they will not be accessible via UDCPs. However, to ensure that our customers can view programming delivered via SDV, we are pleased to announce that we are making the following special offers.

**HD TiVo DVRs:** For customers with TiVo Series3, TiVo HD, or TiVo HD XL digital video recorders, Time Warner Cable has worked with the rest of the cable industry and TiVo Inc. to develop an external device called the Tuning Adapter. The Tuning Adapter is designed to work in conjunction with customers' HD TiVo DVRs, and it will allow these customers to receive programming delivered using SDV technology, but not our other interactive features (such as the Electronic Programming Guide, Video On Demand, and other two-way services that, by design, HD TiVo DVRs cannot access) while they continue to enjoy all the features of their HD TiVo DVRs. For more information, please visit <http://www.timewarnercable.com/tuningadapter>.

HD TiVo DVR users who would like to receive programming delivered using SDV are eligible to receive a Tuning Adapter for each CableCARD-equipped HD TiVo DVR, which we will provide at no charge.<sup>1[\*]</sup> Those customers will continue to pay the standard lease rate for their CableCARD(s).

**Other CableCARD-Equipped Devices:** For customers currently renting CableCARDS for use in UDCPs that are not compatible with the Tuning Adapter, Time Warner Cable will provide one basic HD converter per UDCP in exchange for the CableCARD(s) used in that device. This basic HD converter will allow these customers to receive programming delivered using SDV, but not our other interactive features (such as the Electronic Programming Guide, Video On Demand, and other two-services that, by design, UDCPs cannot access). For at least one year, these customers will pay the same monthly price for each basic HD converter that they are currently paying to rent a CableCARD. (Additional charges may apply after the initial one-year period if customers wish to continue to use the basic HD converter(s) at that time.)

To take advantage of this unique opportunity, customers are asked to call us at 877-253-7327 and reference the letter they received announcing these offers within 60 days of the date of the letter.

Please let us know if you have any questions.

Thank you.

---

PO Box 8180

August 14, 2009

Dear Valued Customer,

Time Warner Cable would like to thank you for choosing us to be your video provider. We are writing to you as a valued CableCARD customer in order to provide advance notice of important upcoming changes that may affect your ability to access certain channels on your one-way CableCARD-equipped retail device (also known as a "UDCP").

Time Warner Cable is rolling out a new interactive technology in your area known as Switched Digital Video ("SDV"). SDV is a particularly exciting bandwidth-management breakthrough that makes it possible for us to offer many additional services, including new HD channels and HD versions of popular existing channels, to our customers. SDV allows us to provide these additional services, while at the same time continuing to offer existing services, because channels delivered using SDV are transmitted over the cable system only on an as-needed basis. As a result, SDV uses system capacity more efficiently than the traditional, always-on method. In order to launch all the new services our customers want, we must also deliver some existing channels using SDV to make additional bandwidth available.

Starting on Tuesday, September 15, 2009, Time Warner Cable will begin providing a number of our existing, lesser-viewed channels via SDV. Please see the attached list for more information.

The current generation of CableCARD-compatible devices sold at retail is only capable of accessing our one-way services. Such devices were not designed to be compatible with SDV, which is a two-way service. As a result, once the channels on the attached chart are delivered using SDV technology, they will not be accessible via UDCPs. However, to ensure that you can view programming delivered via SDV, we are pleased to make the following special offers.

**HD TiVo DVRs:** For customers with TiVo Series3, TiVo HD, or TiVo HD XL digital video recorders, Time Warner Cable has worked with the rest of the cable industry and TiVo Inc. to develop an external device called the Tuning Adapter. The Tuning Adapter is designed to work in conjunction with your HD TiVo DVR, and it will allow you to receive programming delivered using SDV technology, but not our other interactive features (such as the Electronic Programming Guide, Video On Demand, and other two-way services that, by design, HD TiVo DVRs cannot access) while you continue to enjoy all the features of your HD TiVo DVR. Dear Town/City Manager,

I am writing to you as part of our ongoing efforts to keep you apprised of developments affecting Time Warner Cable customers in your community.

Time Warner Cable's agreements with programmers and broadcasters to carry their services and stations routinely expire from time to time. We are usually able to obtain renewals or extensions of such agreements, but in order to comply with applicable regulations, we must inform you when an agreement is about to expire. The agreements with the programmers/broadcasters on the attached list are due to expire soon and we may be required to cease carriage of one or more of these services/stations in the near future. Conversely, there are also times when we will include the addition of new channels within these ads.

Again, this is a routine notice and we are confident agreements will be reached with these networks. Enclosed is a copy of the ad that will run in the local daily paper; the notice can also be found on our website at: <http://www.timewarnercable.com/newengland/support/policies/channelchange.html>

These ads are placed in the first and third Wednesday of each month. This information is also located on the back of the customer bill.

Please do not hesitate to contact us if you have any questions.

Sincerely,

Melinda Poore

Board Meeting Minutes ~ 7/14/09

Dan Brooks brought the meeting to order at 7:03 pm.

Those present: Dan Brooks, Karen Brooks, Mary Ellen Conner, Jim Feverston, Cedena McAvoy, Darcey Peakall, and Julie Macleod. Not present: Garry Greene, Kim McNutt, Norm Stern and Whitey Miller.

The secretary's minutes were accepted as presented.

The Director's Report for July:

- ~ The number of participants in June was up 207 people and daily receipts were up \$12,394.00 compared to last year. This was due to registration falling in June this year.
- ~ Since January, the daily receipts are up \$7,959.00 compared to 2008.
- ~ The pool rental income was down \$615 compared to last year. This is partially due to the pool being closed on Sunday's in the summer starting June 21<sup>st</sup>.
- ~ The monthly fuel usage went down by 541 gallons. Since January 1, 2009, the pool has saved 7,456 gallons, which is a 30% savings for the year.
- ~ Swim lessons for session IV had 230 participants which is an increase of 37 students compared to this time last year. Private lessons had 30 people enrolled for a total of 260 participants.
- ~ There are currently 13 scholarship students enrolled in session V swim lessons.

The treasurer's report was accepted as presented.

Jim and Mary Ellen will go to Means Investments before September 1<sup>st</sup> to transfer the accounts over to Maine Savings Bank.

There is a discrepancy between the amount in the general scholarship fund on Jim's treasurer's report and what Susan Lessard gave Darcey. Susan paid the outstanding bills and there is now a \$0 balance in that account. Jim will set up a meeting with Susan to discuss the difference.

Jim would like to discuss at the next meeting putting a suggestion box in the lobby.

Justin Cole completed his Eagle Scout project. There is a new bulletin board in the lobby, the benches are painted and repaired on deck, and a new Hampden Academy record board was designed, built and hung.

The seashell slide is still being demolished. There have been a few issues with taking it out but hopefully it will be removed this weekend.

Julie will pick up the banners and letters from the PEPSI Bottling Group this week that advertises the new slide.

The article about the new slide was in Hampden Highlights and The Weekly this past week.

Darcey met with Shelley Abbott, Assistant Parks & Recreation Director, about paying for four pages of space in the next Recreation mailing. The cost will be \$264.00 for space. A motion was made to pay, from the money market account, for space in the fall mailing. The motion was passed 5-0. Cedena will help Darcey with the layout and information to be published.

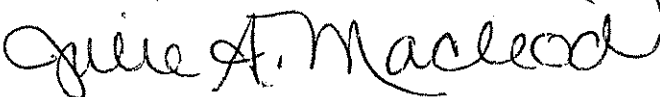

Annual shut down will be August 30 - September 6, 2009. See attachment for a list of what will be done during the week.

There are openings on the Pool Board of Trustees. Darcey will post a sign on the bulletin board. Anyone who is interested may pick up an application from the pool or town office.

The August meeting will be called if deemed necessary by the Darcey and will be held on the 3<sup>rd</sup> Tuesday in August, due to Darcey being on vacation during the regular scheduled meeting. She will notify the board members if needed.

Meeting adjourned at 8:29pm.

Respectfully Submitted,

Julie A. Macleod

Regional Outreach:

The Hampden Community and Economic Development Department (CEDD) is a member and participates in the Bangor Region Development Alliance (BRDA). BRDA is teaming with "Bangor Metro" to host "Atlantica Champions of Excellence" on August 26th and 27<sup>th</sup> at the Hilton Garden Inn in Bangor. The awards dinner and workshops are designed to recognize business leaders of cross border initiatives.

*Update: (This event was very successful. Featured speaker was Doug Hall, Founder and CEO of Eureka Ranch International, and known as "Americas Top Idea Guy". He is conducting a program at the University of Maine in the coming weeks.)*

The CEDD is a member and participant in the Bangor Region Chamber of Commerce and is working with the Chambers marketing division to develop a regional business recognition program. This will coincide with the local grand opening ceremony once developed.

*Update: (Still in planning stages)*

Eastern Maine Development Corporation has initiated the following regional economic efforts:

Mobilize Maine

A collaborative, bottom-up approach to community and economic development which seeks to identify and develop strategies to address Maine's unique assets, such as skills, businesses, activities or special places that have market leverage in a global economy.

Workforce Development

The labor force preparation, education and training, is now distinctively placed within the region's economic development delivery system.

#### Economic Development Network

This group will give meaning to sharing information, best practices, building on a complimentary platform to advance the region's opportunities.

#### Norumbega Group

Consists of executive directors of a diversity of regionally based community and economic development organizations, meeting monthly to discuss common missions, goals and supportive actions.

I will be participating as appropriate and beneficial to the citizens and businesses of Hampden.

#### Special Projects:

With thanks to the Town Council for their financial support of the appraisal and survey of the Marina and adjacent parcel, we are moving forward in anticipation of preparing an application of conversion. On September 8<sup>th</sup>, the appraiser, the surveyor, and the state will be joining Hamlin Marine in a meeting with the CEDD at the Hampden Municipal Building. The purpose is to initiate the process of determining value and establish a clear understanding of all parties of how we achieved the desired result.

*Update: Meeting was successful as all parties attended and participated in the discussion on moving forward. Mick Rogers, Manager of Grants and Community Recreation, Maine Bureau of Parks and Lands stated in a follow-up email we have made great success and are well on our way. The surveying and appraisal work has begun.*

The Comprehensive Plan is in its final review phase and is on schedule to be delivered to Council in September for submission of the plan to the State Planning Office for consistency determination.

*Update: Department comments are coming in as requested. We are still on schedule at this point in time.*

EDYTHE L. DYER COMMUNITY LIBRARY  
BOARD OF TRUSTEES' MEETING MINUTES  
JUNE 13, 2009

Members present: Debbie Lozito (ex officio), Don Desmarais, John Skehan, Richard Jenkins, Tony Mourkas, Yvonne Lambert, Mary Ann Bjorn, Ruth Stearns, Fred Jones, Dave Barrett, mark Russell, Judy Beebe, Shannon Cox (Town Councilor)

Members absent: Cheri Condon

Meeting called to order at 7:37 a.m.

Minutes of the May 13, 2009 meeting were read, moved and seconded.

Library reports perused without question.

Shannon Cox, Chair of the Community Services Committee invited trustees to attend the Community Services subcommittee meetings held on the 2<sup>nd</sup> Monday of each month at 6 p/m/

Motion was made, seconded and unanimously passed to accept the bylaws as written.

Motion was made to adjourn. All were in favor and the meeting was adjourned at 8:05 a.m.

The next meeting is scheduled for September 9, 2009 at 7:30 a.m. at the Library.

Respectfully submitted,

Yvonne Lambert

Dear Cheryl Johnson:

This is in reference to the General Assistance review conducted in Hampden on September 1, 2009.

The review indicates that your program is in compliance with the General Assistance statutes and the Department of Health and Human Services' General Assistance policy.

If this office can be of any assistance to you, please call 561-4185.

Sincerely Yours,

A handwritten signature in cursive script that reads "Ellen D. Heath".

TO: Hampden Town Council  
FROM: Sue Lessard, Town Manager  
DATE: September 17, 2009  
RE: 10 Mayo Road

As you are aware, my office spent a good deal of time in July in assisting a property owner with a Penquis CAP application for home repair for a badly leaking roof. At the present time, the property is in a tax acquired status, although the owner has been making monthly payments faithfully for many, many years. The Penquis application ended up being for a program with a 3-5 year waiting list, which is of no use in this instance. The agency was not informative, helpful, or forthright about the program it advertised or considerate in the treatment of our resident. The Chair of the Board of Penquis, Bill Collins, has assured me that the Board is investigating what occurred. There is no chance of funding for our resident – but I am in hopes that as a result of our intervention - no one else gets the kind of cavalier treatment that his case did.

The property owner is in the process of trying to obtain financing that will allow him to pay off all outstanding property taxes and pay for the cost of the shingling that is necessary. I am requesting permission from the Council to use a portion of the funds earmarked for the Penquis donation this year in order to cover the cost of the shingling. In the event that the owner is able to secure financing, he will reimburse the town from that financing. As previously mentioned, the property is in tax acquired status and it is in the best interest of the Town for it to remain in a state of good repair. The cost of shingling the roof is estimated at \$2,500-\$3,000. It is important that it get completed ASAP to avoid further damage to the home.
